

15 New Positions Approved By City Council Mid-year

Recruitment Process

The City of Goodyear believes in promoting from within whenever possible so several of the newly approved positions will be advertising internally first for a week or two. If no viable internal candidate is found for the position, the job will then be advertised externally.

If these newly approved positions are being advertised externally, the job openings will be posted on our website under Job Opportunities.

This is also the case with any job openings that occur as the result of internal promotions. When advertised externally, the job openings will be posted on our website under Job Opportunities.
